Subject: Permit to Commence Small Mine Activities, Provis Enterprises, Inc., Rainbow Mine, S/031/0011, Piute County, Utah

Dear Mr. Proctor:

The Division of Oil, Gas and Mining finds your Notice of Intention to Commence Small Mining Operations (Notice) complete and approves the reclamation surety (\$9,400) for the Rainbow mine. The surety is escalated until 2016. You are now permitted to conduct mining activities as outlined in the Notice provided you have approval from all other appropriate agencies. The Division understands that the Bureau of Land Management has placed some stipulations to restrict work in some areas approved for work by the Division until additional studies have been performed.

The approval or acceptance of a complete notice of intention does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations. Enclosed please find a copy of the reclamation contract and stamped approved Notice.

Please keep in mind the following regulatory requirements:

- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office and the Division of State History.
- Permit fees and annual reports are due by January 31st.
